FETCO®

FETCO

XTS Firmware, Custom Recipe and Logo
Uploading / Installation Instructions

1) Turn off the brewer with power switch in the back of the machine.

2) Insert the SD card loaded with the firmware / recipe or logo.

3) Turn the brewer back on and the file(s) will automatically begin loading.

4) The display will indicate when the file(s) have been successfully uploaded.

5) Remove the SD card to begin normal operation.
