

GRINDER SERIES

Single & Dual Hopper
Portion Control Coffee Grinders ▶ **GR**

The Ultimate Technology To Meet The Most Demanding

INTRODUCTION

Introducing a line of coffee grinders with performance features that **out-perform the rest**. A host of advanced features provide **unmatched grind consistency, durability and accuracy**. And yet do their job, so that the flavor and aroma of each coffee bean remains intact.

FEATURES

Easily removable 5lb hoppers (on dual grinders) allow operators to change coffee bean selection without spilling or the cost of additional grinders. These hoppers, which can be used as short term storage containers, are easily cleanable. **Powerful 0.67 Hp motor** along with precision slicing type **grinding discs provide uniform grind profile** without re-heating the coffee. Available in both single and dual hopper versions, with 2 batch or 3 batch settings per hopper, ideal for any environment.
