

TBS-21A Single 3.0 Gallon EXTRACTOR® Iced Tea Brewer

The secret to the perfect tasting glass of iced tea or hot tea is to have optimal steep time. No matter what type of tea you are brewing – black chai, green – the TBS-21A utilizes the patented intermittent spray over feature to control the contact time with the tea leaves to deliver the freshest tea. By allowing dilution at the end of the brew cycle (with or without delay) or during the brew cycle (in between sprays), it gives you total control over the final product. Easily program up to 2 batches in 2 volume sizes – 1.0 gallon or 3.0 gallon. Comes standard with the Cascading Spray Dome™.

TBS-21A Single 3.0 Gallon EXTRACTOR® Iced Coffee Brewer

Brew iced coffee directly into our ITD-30 dispenser for a refreshing beverage that will keep them coming back.

TBS-21A Single 3.0 Gallon EXTRACTOR® Iced Tea & Coffee Combo Brewer

Program this versatile brewer to brew iced tea into FETCO's ITD-30 dispenser and hot coffee or hot tea into a LUXUS® Thermal Dispenser or Airpot.
